Mr Wayne Rolands
State Water Resources
Sacramento, CA

Mr. Rolands:

Sorry I'm late getting this back to you.

Hopefully the confusion is now straightened out.

We should now have a water diversion statement for two of my properties

5106 Palmer Canyon (primary residence)
5101 Palmer Canyon (occupied by tenants,
form attached.

I would also like to get a diversion statement for another property I own:
5324 Palmer Canyon. Can you send me the appropriate form?

Thanks
H F Turnbull

MEMORANDUM

TO: FILE

FROM: WHALEN TOY
Water Resources Control Engineer
Data Management Unit - Statement Program
Division of Water Rights

DATE: April 30, 2007

SUBJECT: UNDELIVERED SUPPLEMENTAL STATEMENT OF WATER
DIVERSION AND USE (STATEMENT) S011402.

The U. S. Postal Service returned Supplemental Statement S011402 to the Division of Water Rights (Division) as *"not deliverable as addressed unable to forward."* Division staff subsequently used Parcel Quest™ and/or 411Locate™ on-line services in an attempt to identify current ownership of the diversion property, but were unsuccessful.

The water diverter is responsible for keeping the Division informed of any address or ownership changes. Because Division staff was unable to verify current ownership, S011402 has been designated as an inactive diversion, and has been coded as such in the Division's database. Unless notified by the current owner(s) or their agent, the Division will no longer issue a Supplemental Statement for S011402.

CONTINUATION

GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

TO ALL WATER USERS FILING SUPPLEMENTAL STATEMENTS OF WATER DIVERSION AND USE MARCH 2007

Enclosed is your Supplemental Statement of Water Diversion and Use form (Supplemental Statement) for the years **2004, 2005, and 2006**. All Supplemental Statements should be completed and postmarked no later than **JULY 1, 2007** for delivery to the State Water Resources Control Board, Division of Water Rights (Division). Please review the information in the upper half of the enclosed Supplemental Statement(s) and make any corrections or additions in red ink or pencil (e.g., corrections to current ownership, address, phone number, agent, etc.) so that the Division's database record(s) can be updated.

A separate Statement of Water Diversion and Use form is required for each point of diversion. If the location of the existing point of diversion, as identified on the Supplemental Statement form, has changed, please identify the new location. However, if you have developed a new point of diversion, in addition to the existing point of diversion, please contact the Division for a separate form to record the new diversion.

If you do not file a Supplemental Statement, your use will be considered inactive and it will be recorded as such in the Division's database, and the Division will no longer mail you Supplemental Statements. If you wish to reactivate an inactive Statement in order to record your diversion and use of water, please contact the Division.

If you have any questions or need assistance, please contact me at (916) 341-5376 or at brigby@waterboards.ca.gov.
